

IsoTour®

Gel Support Surface

Introducing our

advanced gel support surface.

IsoTour is a gel support surface designed to help prevent all stages of pressure injuries by addressing key risk factors of skin breakdown: **pressure, shear and microclimate management.**** The surface is composed primarily of gel structures that help redistribute pressure by buckling and absorbing the patient's weight.

50% rental reduction.

Guaranteed.*

Pressure can compound quickly. IsoTour helps relieve pressure — not just for patients, but for care team members and hospitals.
