# Practice OASIS E

In TuftsMedicine Apps

Login to the Remote Client PLY environment with **your assigned username.**

**Note that the training team will assign your username just prior to your scheduled practice session.**

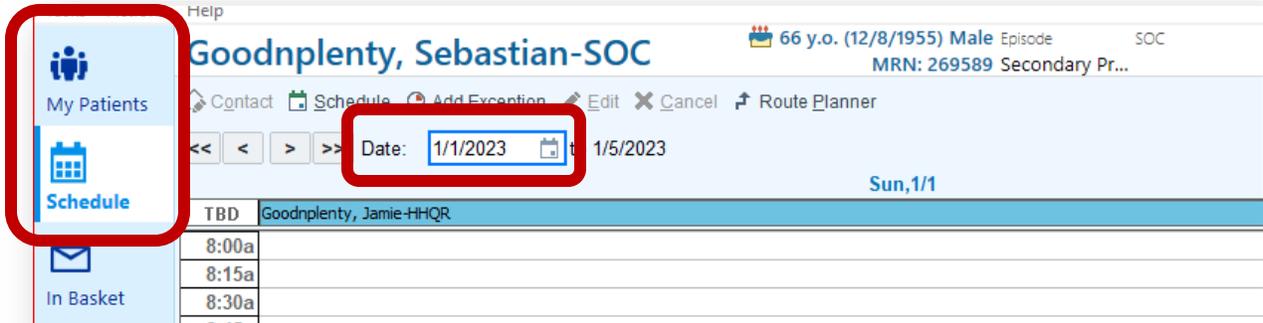

Password= train

Perform a big button sync

When the sync is complete for training patient with 1$^{st}$ name Sebastian, select **Sebastian** from the **patient list**. Last names will vary with the login used.
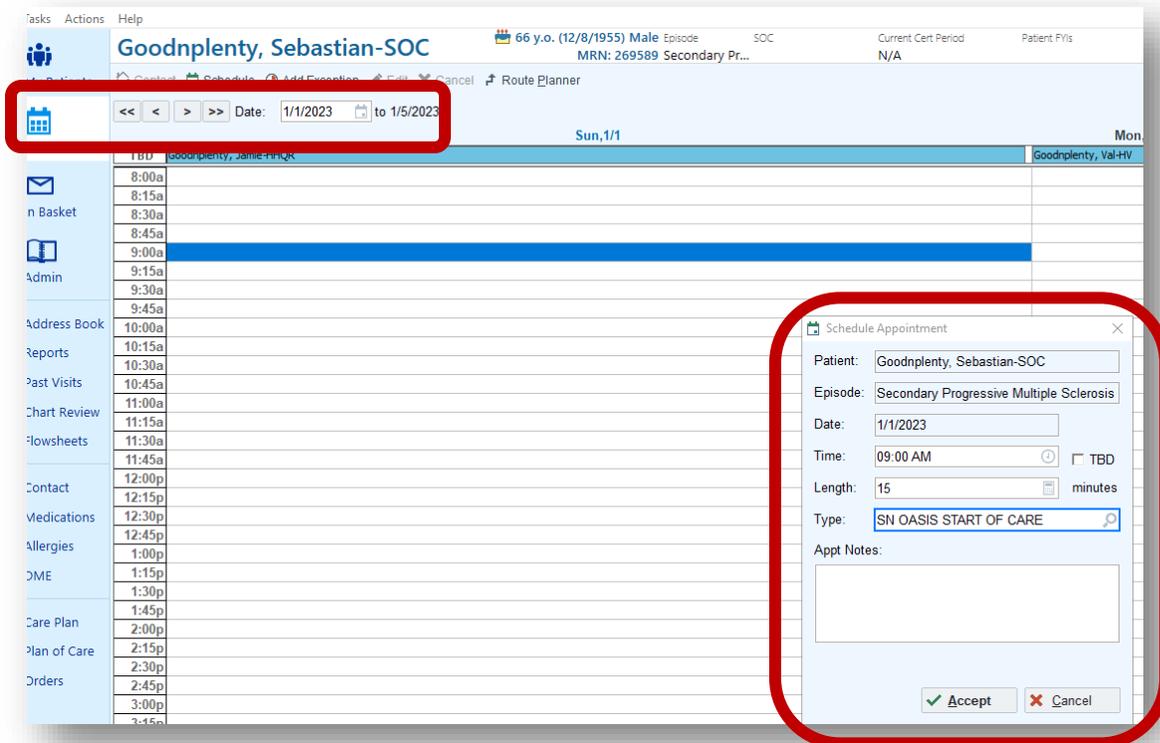

Select the **Schedule** task

Change the **date** on the schedule to 1/1/23 or a later date

Click into any timeslot for that 2023 date, then right click and schedule

Select SN OASIS Start of Care Contact and Accept

Double click Sebastien's appointment on the Calendar to open it.

The Cert period for the appointment must be 1/1/23 (or the 2023 date for which you created the appointment).

Begin your review of the assessment which contains the new OASIS E questions.

**Note that this environment refreshes every night so you will have to repeat this process if you choose to practice on another day.**
