

Achieving Excellence in Consulting & Coding

Questions & Answers from March 12, 2014

Session 2

Q1: 1. When collecting insurance information, should the clinician check all insurance the patient has or just those insurances that will be paying for the home health episode?

A1: M1050 Item Intent states: This item is limited to identifying payers to which any services provided during this home care episode and included on the plan of care will be billed by your home health agency.
